BOOK SYNOPSIS

SAT prep can be very easy or very difficult. It all depends on how you prepare. Many students make the mistake of spending countless hours preparing for the SAT with little to no results. This guide was written by Dr. Steve Warner, a math professor and test prep expert that has been giving SAT math prep advice for over 15 years. After reading this book you will learn - how to prepare for SAT math with only 10 to 20 minutes of daily studying, - the best way to take the test, - how to avoid careless errors, - and much more... Note that this SAT prep book is meant to teach effective, time-efficient preparation. This book does not contain SAT problem sets or practice tests. For SAT workbooks and lessons take a look at other books from Dr. Warners "Get 800" collection such as the "28 SAT Math Lessons" series, or "320 SAT Math Problems."
